

## Publicity for High School Newspapers

### Careers, Candle Light, and College

### Calling all PARENTS of sophomore students!

On January 15 and 24, 2008, the Career and Employment Services and Tech Prep offices at Danville Area Community College, along with Vermilion Vocational Education Delivery System and Vermilion Advantage, are going to host ***Careers, Candle Light, and College***, informational **candle light dinners for the parents of area high school sophomores**. As a parent, you play a large role in your child's career choice, but it is tough sometimes to know just how involved you should become. At ***Careers, Candle Light, and College***, information will be shared throughout the evening on all aspects of career planning, including non-traditional careers, labor market trends, and growth opportunities.

Invitations to the ***Careers, Candle Light, and College*** event will be sent directly to the parents of all sophomore students in the DACC college district. Please watch for this invitation to arrive at your home. Seating is limited so be sure to RSVP promptly. What could be better than picking up some new techniques to help your child find a successful career **AND** a free candle light dinner in the middle of January!

**Contact person:** Nancy Boesdorfer, Director, Career and Employment Services, Danville Area Community College, 443-8753.
