Dear Skip,

THANK YOU so much for serving on the non-traditional careers panel for *Careers, Candle Light, and College* held last week at Danville Area Community College. The panel was excellent! Each of you shared such great information!

I know your time is valuable, and your schedule is very busy, but I so appreciate your participation in helping educate our future workforce and leaders. From the feedback we have received, the parents gained a lot of valuable information about careers (including non-traditional!), labor market trends, educational programs, and scholarships to share with their sophomore students. Again, thank you sharing your expertise and experiences with the parents!

Sincerely,

Nancy Boesdorfer
