Cooperating Teacher

Please give your honest feedback regarding the program.

1. Briefly comment on the appropriateness of the curriculum. Were the topics geared toward student needs? Did the assignments seem to create any greater self-awareness? Were the assignments at an appropriate level for the students? Do you feel this mini-program will have a positive impact on the students that took advantage of it? Why/why not? Specify any advantages if applicable.
2. Please offer feedback on the overall organization of the course. Were the modules/assignments paced appropriately? Was there enough time to complete assignments and activities? Did the project leader offer enough support or not? Were the assignments/directions clear? Do you feel that things were organized in such a way that the responsibilities on your end were reasonable? Why/why not?
3. Comment on the use of technology in this course. Which components worked, which didn't? Despite difficulties, do you perceive using technology like Blackboard and e-mail, etc... are as beneficial? Would you use the technology components again in future offerings?

4. Please offer advice on how this course could be improved. List areas of dissatisfaction or difficulty and ideas for reformulation.

5. Please discuss areas of satisfaction with this course. What worked? What was beneficial? What should be repeated?
